

Display & Distribution of Free Materials

Great Falls Public Library provides space for display and distribution of free materials. This space includes a bulletin board and information rack. Free materials include public documents and announcements that publicize non-profit, civic, educational, cultural, or recreational organizations and events. The Library also serves as a location for governmental and community organizations to provide public access to information by displaying public reports and other informational materials in the reference area.

Commercial and personal announcements or active solicitations of any kind are not allowed. Materials for display or distribution may not promote a specific religious concept, espouse partisan politics or demean groups or individuals. The library reserves the right to place limits on location, duration and size of materials.

All announcements must be pre-approved by library staff before being posted or distributed. In general, items will be removed from posting after 30 days.

Distribution or posting of items by the library does not imply endorsement, support or co-sponsorship by the library.
