Why wearing a mask is important to me

My husband and I are enthusiastic supporters of the GF Public Library. Recently I heard that there were some folks who objected to your policy of wearing a mask while being inside the library. We all know that there are people who outright defy the policy and others that, I hope, just don't understand. However, whether or not they understand, it's up to all of us who know better to educate and inform. We've been in several situations where a couple people want to show their independence and frankly, their ignorance. It's up to all of us to enforce the rules and let them know that they will make us sick if they don't wear a mask. A policy protects us all and we can't use the microscope to provide individual "rights." That is NOT a democracy. We all suffer the inconvenience of masks and we all reap the benefits of good health.

Chuck and I applaud your efforts to keep the library open and a safe haven. Thanks for following policy.
