Dear Great Falls Public Library Board:

I am writing on behalf of our required mask policy.

As an employee of Great Falls Public Library, I would request you continue to require the mask mandate as it stands for the library. We have already had one known exposure and I, personally, feel safer knowing that staff and patrons are required to wear the masks correctly. I try to limit number of places I go and the library is the only open building that I have been in where the mask policy is enforced and people are asked to wear it correctly.

Thank you for your consideration,

Treva Higgins
